

**CURRICULUM VITAE**  
**Gregory M. Wolgamot, MD, PhD**  
**Pathologist, AP/CP/DP**

**Current Contact Information:**

Gregory M. Wolgamot  
Northwest Pathology 3614  
Meridian, Suite 100  
Bellingham, WA 98225

Email: [greg.wolgamot@northwestpathology.com](mailto:greg.wolgamot@northwestpathology.com)  
Home: (360)527-1010  
Work: (360)734-2800  
Pager: (360)527-7126  
Cell: (360)305-2360

**Education:**

1992            B.S., Biochemistry and Biophysics, Oregon State University, Corvallis, OR  
Summa Cum Laude  
1998            Ph.D., Department of Pathology, University of Washington 2000  
M.D., University of Washington School of Medicine  
2000-2002      Resident in Pathology, Brigham and Women's Hospital,  
Harvard Medical School, Boston, MA  
2002-2003      Resident in Department of Laboratory Medicine, University of Washington  
2003-2004      Chief Resident, Department of Pathology, University of Washington  
2004            Mini-fellowship, Hematopathology, 6 months, University of Washington  
2005-2006      Fellow, Dermatopathology, University of Washington

**Board Certifications:**

2005            Certified by American Board of Pathology, Anatomic Pathology  
2005            Certified by American Board of Pathology, Clinical Pathology  
2006            Certified by American Board of Pathology, Dermatopathology

**Awards:**

1995            Recipient, Fred Hutchinson Cancer Research Center Scholarship 1995  
Recipient, Parrett Scholarship for Medical Research  
1998-2000      Recipient, Achievement Reward for College Scientists (ARCS)

**Professional Activities:**

2008-2011      CME Committee, member  
2008-2012      Medical Director, Wrangell Medical Center Laboratory  
2009-present    Cancer Committee, member  
2009-present    Medical Director, Hematology section, St. Joseph Hospital  
2010-present    Peer Review Committee, American Society of Dermatopathology

2010-present Chairman, SJH Tumor Board  
 2011-present Mycosis Fungoides Panel, in collaboration with Dr. John Olerud at UW  
 2011-present Chairman of Pathology, St. Joseph Hospital  
 2012-present Medical Director, United General Hospital laboratory

**Current License to Practice:**

STATE	INITIAL LICENSE	EXPIRATION DATE
Washington State Medical License	2004	11/9/2015
Alaska State Medical License	2006	12/31/2014
Nevada State Medical License	2013	6/30/2015
Montana State Medical License	2013	3/31/2015

**Electronic Publications:**

**Wolgamot, G.** *Skin Cutting Guidelines*. Used by residents and staff at the University of Washington, and available on the Department of Pathology website:  
<http://www.pathology.washington.edu/academics/residency/guidelines/derm/skin.html>  
 (password protected; hardcopy available upon request)

**Publications:**

Furmanczyk, P., **Wolgamot, G.**, Kussick, S., Sabath, D., Olerud, J., and Z. Argenyi. 2009. Diagnosis of Mycosis Fungoides with Different Algorithmic Approaches. 2009. *J. Cutaneous Pathol.* 2009, July 7.

Furmanczyk, P., **Wolgamot, G.**, Argenyi, Z., and S. Gilbert. 2009. Extensive granulomatous reaction occurring 1.5 years after Dermalive injection.. *Dermatol. Surg.* **35 Suppl 1**:385-8.

Tran, D., **Wolgamot, G.**, Olerud, J., Husrt, S., and Z. Argenyi. 2008. An 'eruptive' variant of juvenile xanthogranuloma associated with Langerhans cell histiocytosis. *J. Cutan. Pathol.* **35 Suppl 1**:50-4.

Yoo, J., **Wolgamot, G.**, Torgerson, T., and R. Sidbury. 2008. Cutaneous noncaseating granulomas associated with Nijmegen breakage syndrome. *Arch Dermatol.* **144(3)**:418-9.

Jokinen, C., **Wolgamot, G.**, and Z. Argenyi. 2008. Collagen-rich variant of benign epithelioid peripheral nerve sheath tumor of the skin. *J. Cutan Pathol.* **35(2)**:215-9.

Robles, D., Leonard, J., Compton, N., Waghmare, A., McDonough, K., George, E., **Wolgamot, G.**, and P. Fleckman. 2008. Severe Drug Hypersensitivity Reaction In a Young Woman Treated With Doxycycline For Acne Vulgaris. *Dermatol.* **217(1)**:23-26.

- Jokinen, C., **Wolgamot, G.**, Wood, B., Olerud, J., and Z. Argenyi. 2007. Lymphomatoid papulosis with CD1a+ dendritic cell hyperplasia, mimicking Langerhans cell histiocytosis. *J. Cutan Pathol.* **34(7):**584-7.
- Wolgamot, G.**, Olerud, J., Shors, A., Rhim, J., and Z. Argenyi. 2007. Giant cell rich histiocytic-hemosiderotic dermatitis/panniculitis associated with thrombocytosis. *Am J Dermatopath* **29(3):**296-9.
- Jokinen, C., **Wolgamot, G.**, Wood, B., Olerud, J., and Z. Argenyi. 2007. Lymphomatoid papulosis with CD1a+ dendritic cell hyperplasia, mimicking Langerhans cell histiocytosis. *J Cutan Pathol.* **34(7):**584-7.
- Wolgamot, G.**, Yoo, J., Hurst, S., Olerud, J., and Z. Argenyi. 2007. A Unique Histopathologic Manifestation of Adult-Onset Still's Disease. *Am. J. Dermatopath* **29(2):**194-6.
- Li, N., **Wolgamot, G.**, and Z. Argenyi. 2007. Primary cutaneous neuroendocrine cell carcinoma (Merkel cell carcinoma) with prominent microcystic features, mimicking eccrine carcinoma. *J. Cutan Pathol.* **34(5):** 410-4.
- Wolgamot, G.**, J. E. Olerud, and Z. B. Argenyi. 2005. Clinical Pathologic Challenge: Firm Papules on Lower Extremities of a 52 year old Male. *Am. J. Dermatopath.* **27(4):**313, 347.
- Wolgamot, G.**, and A. D. Miller. 1999. Replication of *Mus dunni* endogenous virus depends on promoter activation followed by enhancer multimerization. *J. Virol.* **73:** 9803-9809.
- Wolgamot, G.**, J. E. J. Rasko, and A. D. Miller. 1998. Retrovirus packaging cells expressing the *Mus dunni* endogenous virus envelope facilitate transduction of CHO and primary hematopoietic cells. *J. Virol.* **72:** 10242-10245.
- Wolgamot, G.**, L. Bonham, and A. D. Miller. 1998. Sequence analysis of *Mus dunni* endogenous virus reveals a hybrid VL30 / gibbon ape leukemia virus-like structure and a distinct envelope. *J. Virol.* **72:** 7459-7466.
- Miller, A. D. and **G. Wolgamot.** 1997. Murine retroviruses use at least six different receptors for entry into *Mus dunni* cells. *J. Virol.* **71:** 4531-4535.
- Bonham, L., **G. Wolgamot,** and A. D. Miller. 1997. Molecular cloning of *Mus dunni* endogenous virus: an unusual retrovirus in a new murine viral interference group with a wide host range. *J. Virol.* **71:** 4663-4670.
- Miller, A. D., L. Bonham, J. Alfano, H-P. Kiem, T. Reynolds, and **G. Wolgamot.** 1996. A novel murine retrovirus identified during testing for helper virus in human gene transfer trials. *J. Virol.* **70:** 1804-1809.

Halbert, C. L., I. A. Alexander, **G. M. Wolgamot**, and A. D. Miller. 1995. Adeno-associated virus vectors transduce primary cells much less efficiently than immortalized cells. *J. Virol.* **69**: 1473-1479.

Gross, C. H., **G. M. Wolgamot**, R. L. Russell, M. N. Pearson, and G. F. Rohrmann. 1993. A baculovirus encoded 16-kDa glycoprotein localizes near the nuclear membrane of infected cells. *Virology* **192**: 386-390.

Gross, C. H., **G. M. Wolgamot**, R. L. Russell, M. N. Pearson, and G. F. Rohrmann. 1993. A 37-kilodalton glycoprotein from a baculovirus of *Orgyia pseudotsugata* is localized to cytoplasmic inclusion bodies. *J. Virol.* **67**: 469-475.

**Wolgamot, G. M.**, C. H. Gross, R. L. Russell, and G. F. Rohrmann. 1993. Immunocytochemical characterization of p24, a baculovirus capsid-associated protein. *J. of Gen. Virol.* **74**: 103-107.

### **Abstracts:**

Tran, D., **Wolgamot, G.**, Olerud, J., Hurst, S., and Z. Argenyi. "Eruptive variant" of juvenile xanthogranuloma associated with Langerhans cell histiocytosis. Submitted as a presentation, American Society of Dermatopathology Annual Meeting, Chicago, IL, 2006.

Jokinen, C., **Wolgamot, G.**, Hunt, E.L. Jr., and Z. Argenyi. Collagenous spherulosis in an epithelioid Schwannoma. Submitted as a presentation, American Society of Dermatopathology Annual Meeting, Chicago, IL, 2006.

**Wolgamot, G.**, Yoo, J., Hurst, S., Olerud, J., and Z. Argenyi. A Unique Histopathologic Manifestation of Adult-Onset Still's Disease. American Society of Dermatopathology Meeting, Seattle, WA, 2005. Abstract published in *J Cut Pathol* 2006: **33**: 119

**Wolgamot, G.**, Shors, A., Olerud, J., and Z. Argenyi. Giant cell rich histiocytic-hemosiderotic dermatitis/panniculitis associated with thrombocytosis. American Society of Dermatopathology Meeting, Seattle, WA, 2005. Abstract published in *J Cut Pathol* 2006: **33**: 120

Jokinen, C., Li, N., **Wolgamot, G.**, Kussick, S., Wood, B., Olerud, J., and Z. Argenyi. Florid CD1a+ dermal dendritic cells in primary CD30+ cutaneous T-cell lymphoproliferative disorder mimicking Langerhans cell histiocytosis. American Society of Dermatopathology Meeting, Seattle, WA, 2005. Abstract published in *J Cut Pathol* 2006: **33**: 92

**Wolgamot, G.**, Chien, A., Kussick, S., Olerud, J., and Z. Argenyi. Anaplastic large cell lymphoma masquerading as an infectious syndrome. American Society of Dermatopathology Meeting, Boston, Massachusetts, 2004.

**Wolgamot, G.**, Bonham, L., and A. D. Miller. The MDEV genome reveals a wild mouse retrovirus with retrotransposon LTRs and a novel envelope. Cold Spring Harbor Laboratory Retrovirus Meeting, May 20-25, 1997.

**Wolgamot, G.,** and A. D. Miller. A unique retrovirus may exhibit LTR expansion. Department of Pathology Retreat, 1997; and Fred Hutchinson Cancer Research Center Retreat, 1997.

**Wolgamot, G.,** Bonham, L., and A. D. Miller. MDEV: a novel retrovirus with unusual features. Department of Pathology Retreat, 1996; and Fred Hutchinson Cancer Research Center Retreat, 1996.

**Wolgamot, G.,** Bonham, L., and A. D. Miller. A novel retrovirus with unusual features. West Coast Retrovirus Meeting, October 3-5, 1996.

**Wolgamot, G.,** Bonham, L., Kiem, H.-P., Reynolds, T., and A. D. Miller. Characterization of a novel retrovirus. Department of Pathology Retreat, 1995; and Fred Hutchinson Cancer Research Center Retreat, 1995.
